Inspector Observations:

Inspector S.Sidwell attempted to conduct a re-inspection of the facility. The inspector did not complete the re-inspection due to major closure violations being observed at the time of the re-inspection. The inspector observed a dead rodent in the soda bib dry storage area adjacent to the kitchen. Numerous flies were also observed throughout the facility landing on food contact surfaces and equipment. Operator was unable to provide proof of pest control service as required on the routine inspection report. This facility has voluntarily closed due to vermin infestation. Closure signs have been posted on the entrance of the facility. Closure signs shall remain posted until a reinspection occurs and approval to re-open for operation has been granted by a member of this department. A reinspection of the facility has been scheduled for 8/5/19. This facility will be required to attend an office hearing at the Environmental Health Department office located at 554 S. Paseo Dorotea in Palm Springs, CA 92264. The inspector will contact the owner with the date of the office hearing. If the facility fails to pass the re-inspection on the date listed above, a re-inspection fee of \$186.00 will be charged to the owner of the facility.

Inspector C.Shay accompanied and conducted a structural upgrade evaluation in conjunction with the re-inspection. That report will be sent separately.
